

River Trails
2002 Fall Encampment
October 18 - 20, 2002
Location to be Announced!

The Fall 2002 camporee will be an eye opening, thought provoking and motivational message to your Scouts. We will concentrate on their future careers. We will have 8 different career professionals on hand that will provide incite and get the Scouts thinking about what is ahead after High School. Some may already know that they want to go into the military; some may know that they are going to college, but do they know what path they will take? Most don't. Planning N.O.W. stands for No Other Way. Without a plan, there can be not future. Here is our opportunity to add to the leadership skills and help the Scouts think about Planning N.O.W.

Pre-Camporee Activity

The Troop as a whole will construct a display depicting one career. Topics to consider with the display will be a description of what the career is, the education to obtain the position, resources to learn more about the career, the career's tools, and anything pertaining to the career. This is the Scouts display and will be judged accordingly. Scouters will need to see that the task is being done, but please remember that this is an activity for the Scouts to learn.

More descriptive information for the display will be discussed at the September Roundtable. This should get your troop thinking about a career topic.
